THE Minister of Commerce, Industry and Mines, the Hon. Tommy Hutton-Mills, has announced that all pass books owners will be allowed to continue to use them.

This announcement was made by the Minister when he met a delegation of the Accra Town Council, and the Accra Market Women led by Councillor E. E. K. Yankah and Madam Suslaku, respectively, at his Ministry on Wednesday.

When the market women met the Minister last month, they contended that essential goods could not be bought with cash alone because it would bring about difficulties.

The women also pointed out to the Minister that if the pass

The Senior Fisheries Officer, Mr. E. R. Johnson, has told the "Graphic" how the machine works. He said that when the fish is brought from the sea, it is first of all cooked by high pressure steam. After that the fish is put into a palm-oil press which squeezes out the oil and part of the water.

From that machine, Mr. Johnson added, the fish goes to a concentrator which dries it for about three hours and later sends it into a special mill which grinds the fish into powder.

Mr. Johnson also said that the oil which is extracted

to the Minister that if the pass books are cancelled, their long established trade with the firms will be utterly destroyed and that they will be deprived of the commission on which they have been making their livelihood.

The delegation of the Accra Town Council on Monday told the Minister through his Permanent Secretary, Mr. D. A. Sutherland, that if the pass books were cancelled it will cause a great stir in the country.

They said this is because a great majority of the women in Accra alone have held these pass books for years and that was the only means by which they earn their living.

## Section of Lidbury report praised

**THE Gold Coast Unemployed Association has praised that section of the Lidbury report which recommends improved Trade Unions for the Gold Coast.**

The President of the Association, Mr. I. K. Kuma, told the "Graphic" that he was glad that the newly formed Ghana Trades Union Congress had already started to improve trade unionism in the Gold Coast.

# COUNCILS WILL DISCUSS NKRUMAH'S STATEMENT

**TWO Councils, the Northern Territories Territorial Council and the Colony Council, have written to Mr. H. P. Nyemetei, General Secretary of the C.P.P. about Mr. Kwame Nkrumah's challenge.**

The Chief Commissioner of the Northern Territories, Mr. G. N. Burden, said in his letter that two members of the Northern Territories Council had requested that Mr. Nkrumah's statement should be placed on the Council's agenda. But he pointed out, that since the Council will not meet until October 31, it would not be possible for them to submit their views on the statement before October 14.

The secretary of the Colony Council, Mr. J. Magnus Sampson, has also acknowledged receipt of a copy of that statement.

He said that he hopes to lay the statement before the next meeting of the Council.

Mr. N. A. Ollenu, leader of the National Democratic Party announced today that the reply of his party to Mr. Kwame Nkrumah's challenge will be given at a meeting to be held at the West End Palladium on Friday.

Mr. Johnson also said that the oil which is extracted from the fish is later purified and used for cooking.

He said, "If present experiments prove successful, we hope to order a larger plant which will prepare fish in larger quantities for sale in the country." The fish will be put in paper sacks.

**U.G.C.C.'s reply to Nkrumah's challenge**

After their meeting at Saltpond on Saturday, the Executive Council of the United Gold Coast Convention has issued the following statement on the recent challenge of Mr. Kwame Nkrumah, Leader of Government Business and Life Chairman of the Convention People's Party, to all political parties to support him in declaring a second "positive action" to achieve self-government for the Gold Coast.

**"IT IS AN INVITATION TO JOIN  
A CRIMINAL CONSPIRACY"**

The so-called challenge is an invitation to join Honourable Kwame Nkrumah and his party to sign an agreement and to issue an "ultimatum" declaring "positive action" against His Majesty's Government in the United Kingdom should that Government reject a Gold Coast demand for the immediate grant of Dominion status.

We would have ignored the statement or so-called challenge in view of the long catalogue of abuses which pre-faced it. However, in view of the position held by Honourable Kwame Nkrumah in the Government of the country and the fact that we are the originators of the modern intensified demand for the liberation of our country, we con-

tation to join him in a criminal conspiracy to upset the orderly development of this country is satanic and must be condemned by all right-thinking people in this country.

The Executive Council of the United Gold Coast Convention will not attend any conference to "plan a nation-wide campaign of Positive Action".

**AGAINST LAW  
AND ORDER**

It is clear that Hon. Kwame Nkrumah does not intend that the Convention should accept his invitation. He invited us to do something which he knew we should refuse to do, being not only against our policy but highly criminal and subversive of law and order. But he hopes that he can use our refusal to

But Dr. Nkrumah knows very well that, by his several utterances in the United States and the United Kingdom to the effect that he did not seek self-government immediately and that he was bound by certain pledges, he himself has so committed himself that he cannot demand self-government for the Gold Coast. He cannot demand it from the Secretary of State because he states that it is in his own possession. He cannot demand it immediately from the Secretary of State because of his declaration that he does not seek it immediately. All Dr. Nkrumah's clamant protestations are mere pretence to bolster up his fast failing fortunes. The people know he has failed, and Dr. Nkrumah sees it written in every face he meets.

**NKRUMAH'S  
CONFESSION**

children in the towns and villages, and they can help in making sick people happy.

Very often appeals have been made to women to come forward to help in voluntary services to the community, but these appeals have been ignored or responded to by only a few public spirited women.

It is not only in politics that women can show that they can be of use to the community. In fact too many politicians cannot make us a useful people, and unless these women are prepared to play their part in the progressive development of the country we may find ourselves behind others who are aspiring to take their just place in the comity of nations.

We must pay tribute to those who are struggling to provide themselves with the comforts of life through their own enterprise and industry, but the Gold Coast would be a happier place if more women would play a greater part in contributing towards the improvement of the country.

position clearly.

## PROPOSAL UNACCEPTABLE

The proposal for an ultimatum followed by positive action is utterly unacceptable to us. We believe that full self government can be achieved without an ultimatum and without Positive Action, which, as has already been demonstrated in this country, will impose unnecessary and uncalled for suffering and hardships on the people. The Guggisberg constitution was not achieved by Positive Action; the Alan Burns constitution was not achieved by Positive Action; the present constitution was won without Positive Action. We believe that, guided by our country's proud record, history and culture, the final step to Dominion Status can be successfully taken without Positive Action.

Most certainly, at this stage, neither an ultimatum nor Positive Action should be a Gold Coast Statesman's reply to the message which Mr. Krobo Edusei brought to Hon. Kwame Nkrumah from the Secretary of State assuring him that the grant of Self Government for the Gold Coast rested with him and the Governor.

## CRIMINAL CONSPIRACY

Furthermore, Honourable Kwame Nkrumah himself having declared that Self-Government was in his hands the invi-

using to accept his policy of Positive Action we did not want self-government. It is a false hope. The people know that the demand for self-government was started by us and that Nkrumah was brought into it by us. We have never ceased to demand it, and even now we demand it from Dr. Nkrumah and his Government. He admits that it is in their possession. Let him grant it now.

called challenge is an open confession of his utter inability to achieve self-government for the country.

And having, by his own pronouncement, now demonstrated conclusively his inability to attain Self Government by any other than violent means, he has forfeited his claim to lead the people of this country in the right course to achieve

# Pupil teachers cannot control 46 pupils

Says APALOO

**SPEAKING** at the Community Centre last Friday, about the new education plan, Mr. M. K. Apaloo, secretary of the Working Committee of the U.G.C.C., said that he felt the young pupil teachers cannot control classes of about 36-46 pupils.

He said that was not going to work even after they have been given a six-week emergency training. Continuing, Mr. Apaloo said there would be inequality of facilities. He said the abolition of school fees was just a minor item because parents would still buy books and dresses for their children apart from paying taxes.

## Will serve four years in prison on arson charge

Mr. Justice K. A. Korsah sentenced Kofi Kagbo to four years imprisonment at the Accra Assize Court.

Kagbo has been found guilty of arson.

Another speaker, Mr. P. F. du Sautoy, said that plans were being made to help parents by supplying West Africa with special text books which might be cheaper. He said that provision would be made for religious and moral training, and added that the Government would not stop people from running private schools provided they could give free tuition.

**MR. OBETSEBI LAMPTEY**, counsel for the Korle-We family, told the Divisional Court on Monday that Osu's claim for Legon is, "rightly unfounded". He said that there are stool claimants and individual claimants and the first in time is the first in law.

Mr. K. A. Bossman, counsel for Osu, told the court that there had been no evidence of occupation by any member of the Korle We or the Gbese. He referred to an exhibit to show that in 1901, the Labadi stool and elders recognised an old road as their western boundary. "All their villages are to the east," he said.

He referred to the acquisition of 1894 and the residential area case and said, "it is the Osu stool that has undisputable facts of occupation."

# 25 per cent increase in Railway freight rates announced

**THE RAILWAY ADMINISTRATION** has announced that increases in railway freight rates at Takoradi harbour became effective on October 1.

It states that the increases in the railway tariff represent a rise of 25 per cent on the carriage of the majority of general commodities including cocoa, but excluding bauxite, timber, and local foodstuffs.

It adds that harbour charges are raised by margins varying from 25 to 100 per cent, and affect port dues on vessels pilotage fees and the like.

A spokesman of the Railway Administration said that the reason for the increase of rates is due to the great increase during recent years in salaries wages and prices of materials.

He added that in order that an even balance between revenue and expenditure may be maintained the revenue must be substantially increased.

# Magistrate says death was due to electric shock

AT AN INQUEST held at the Accra Magistrate's Court "B", before Mr. M. J. C. Saunders, constable Isaac Cobblah Nsiah said that on August 18, 1951, he received a report that there was a dead body lying on the Chorkor-Faana Road and he went to the scene.

The body could not be identified, so after a photograph had been taken, it was removed to the Public Mortuary and the Doctor in charge was informed.

Addressing the court the Magistrate said that it is an offence for anyone to see such thing without reporting it to police. If someone happened to be caught for that offence, he is liable to a fine of £100 and 6 months imprisonment in addition.

During another inquest at the same court, constable Winfred Adjei told the court that on July 8, this year he received a report from

House D522-3, Adabraka, about the death of one Jonathan Sowah Adjani. He said he went to the place and found him lying down with an electric pressing iron besides him. He noticed a burn on the stomach. The body was later removed to Korle Bu Hospital.

After all the witnesses had given their evidence, the Magistrate said that he was satisfied that Adjani's death was due to electric shock.

Kwame Nkrumah knows that for him to want a united front he must want the United Gold Coast Convention, for the Convention which has been forced to become a party was the country's united front which he himself sought to destroy

But the United Gold Coast Convention was not destroyed.

The Convention calls upon the country to stand like one man in support of the Party which has a scheme for attaining self-government by constitutional and legitimate means. It is a call to all, Chiefs and non-chiefs. It is a call to the workers, the farmers, the Trade Unionists, the employed and unemployed, the ex-servicemen, and men and women in all walks of life sick and tired of Nkrumah's many broken promises to stand together and deliver this country of ours from ruin.

Ghana liberated must be a Ghana worth living in, not a land of broken bones and broken homes. Once again, as in 1948, we sound a call to wake from sleep, a call to reason and sanity, a call for wisdom and freedom, a call to liberty. Gold Coast awake, and let Ghana be free.

S. J. Hogben on Wednesday at the British Council house. Mr. Hogben was Director of Education in Trinidad before coming to the Gold Coast.

# PAINS IN THE BACK

## Here's a way to relief!

Do you know that one of the common causes of backache lies in the kidneys? When they are healthy they filter harmful impurities out of the system—their natural function. When they grow sluggish, these impurities accumulate and the resulting congestion is often the cause of backache.

De Witt's Pills are specially prepared to help wake up sluggish kidneys. They have a cleansing and antiseptic action on these vital organs, soothing and restoring them to their natural activity. Relief from backache follows as a natural consequence.

It is far better to tackle the cause of backache than to go on suffering in a way which is bound to affect your work and happiness. For over half a century De Witt's Pills have been bringing relief to sufferers from backache and we have received countless letters of gratitude. Go to your chemist and obtain a supply to-day.
